

MSK AUSTRALIA

MSK Ultrasound Upper Limb Masterclass, Sydney

Saturday 17th October 2020

9:00am-4:30pm

PROGRAM

This one day masterclass lecture series will detail anatomy and sonographic pathology of the selected body region complemented by case studies of pathology and common presentations. This will be run in conjunction with didactic live scanning workshops where the presenters will demonstrate scanning techniques and insider tips on how to easily make the correct diagnosis.
